Highlight of the Quarter

This fall the Graduate Student Assistants and Ms. Nohe developed an informative display on the Madden's Hammock site for the City of Miami Lakes. Dr. Marquardt from the Florida Museum of Natural History (FMNH) contacted our office and asked us to help interpret a small selection of artifacts from the FMNH on loan to the City. The Maddens Hammock site is one of the more significant sites within Miami-Dade County, and it is protected on City of Miami Lakes property. The completed display and associated signage were installed in December at Miami Lakes City Hall.
